Headteacher
Mr G. Gaidoni

17th March 2026

Dear Parents & Carers,

Science Week – 23rd March 2026

I am writing to inform you about an exciting Science Week that we have planned for the children. As part of the week, we have organised 'Fab Science' to deliver their Forces Workshop in school. During this workshop, the children will experience a range of engaging demonstrations and activities exploring scientific concepts such as air pressure and gravity. These will take place on Tuesday 24th March and Thursday 26th March and have been kindly funded by the PTFA.

We will also be focusing on the enquiry type 'Pattern Seeking'. Across the school, children will take part in an investigation to explore whether those with larger hands have longer arm spans.

In addition, I would like to encourage you to engage in science activities at home with your children. The Primary Science Teaching Trust website provides a wide range of excellent ideas for simple science experiments designed for families to carry out together. It includes short, step by step instructions explaining the equipment needed and demonstrating how to carry out each activity. You can explore these resources using the following link: <https://pstt.org.uk/resources/science-fun-at-home/>

We hope this week will inspire curiosity and enthusiasm as the children explore the wonders of science.

Yours sincerely,

Mr Weatherhead
Science Lead
